PROFESSIONAL SUMMARY

Experienced Full Stack Engineer with 5+ years of expertise in designing, developing, and deploying scalable web and mobile applications across India, UAE, and Africa. Skilled in React.js, React Native, Node.js, and AWS cloud deployment. Adept at integrating AI/LLM APIs, vector databases, and modern frameworks to build intelligent business solutions. Currently advancing skills in Artificial Intelligence and Machine Learning to architect next-generation enterprise applications.

WORK EXPERIENCE

Software Engineer - BAIRUHATECH LLP

August 1, 2022 – Present

- Led the design, development, and delivery of multi-platform web and mobile applications using React.js, React Native, Node.js, and NestJS.
- Architected and deployed scalable cloud infrastructure on AWS and Scaleway, improving performance and uptime.
- Collaborated directly with clients to define project scope, analyze requirements, and ensure on-time deliverables.
- Implemented CI/CD pipelines, optimized DevOps workflows, and enforced Git-based version control for consistent deployments.
- Directed cross-functional development teams, reducing project delivery timelines by 20% through agile methodologies.
- Delivered onsite implementations in Dubai (UAE) and Nairobi (Kenya) for enterprise projects, managing full deployment cycles and client coordination.
- Integrated AI/LLM APIs, RESTful services, and third-party SDKs to deliver intelligent, real-time solutions.

Process Associate - Tata Consultancy Services (TCS)

December 10, 2019 – July 1, 2022

- Improved internal business workflows through automation tools and process optimization, enhancing overall operational efficiency.
- Developed and maintained technical documentation to support system enhancements and internal tool improvements.
- Collaborated with cross-functional and global teams to ensure high-quality project deliverables and timely client support.
- Assisted in analyzing business requirements and implementing process improvement strategies across multiple domains.

- Gained exposure to enterprise operations, quality assurance, and agile project coordination in a global delivery environment.

PROJECTS

1. Sahari Cargo – International Cargo Management ERP

Additional Technologies: AWS, Bluetooth Printer Integration, Barcode Printing, Cloud Deployment

Highlights:

- Engineered a scalable ERP integrating logistics, accounting, and tracking systems in a single platform.
- Implemented barcode printing and automated cargo tracking, improving operational accuracy.
- Learned advanced AWS infrastructure setup for high availability and fault tolerance.

2. Kenya Airways – Staff Travel Management System

Additional Technologies: Amadeus Flight Booking API, Role-Based Access Control

Highlights:

- Integrated Amadeus Flight APIs for real-time flight search, scheduling, and ticketing.
- Built a secure RBAC system for employee travel management and approval workflows.
- Gained deep experience in third-party API integration and airline domain data structures.

3. XentryBook – Gym Access & Biometric Management App

Additional Technologies: ESSL Biometric SDK, Realtime Data Sync Control

Highlights:

- Integrated biometric attendance devices for automated user access control.
- Designed real-time synchronization between biometric devices and mobile apps.
- Enhanced understanding of hardware-software communication protocols and authentication logic.

4. Suprabhaatham – Daily News Portal

Additional Technologies: Strapi CMS, GraphQL API, Real-Time Notifications

Highlights:

- Integrated Strapi CMS for headless content management and editorial workflows.
 - Implemented GraphQL to enhance query performance and flexible data fetching.
- Gained practical experience in real-time notifications and multi-language architecture.

5. Event Management CRM

Additional Technologies: Sendbird SDK (Chat/Communication), AWS Hosting

Highlights:

- Developed custom CRM workflows for event registration, scheduling, and client interaction.
- Integrated Sendbird for real-time chat and participant communication.
- Learned client-facing project delivery, from requirement gathering to live deployment.

6. Ticketing App - Teenzania

Additional Technologies: Bluetooth Printer Integration, Loyalty System

Highlights:

- Built on-site ticketing and Bluetooth printer integration for instant ticket issuance.
- Implemented role-based access for admins and staff.
- Learned customer retention systems through loyalty card feature development.

TECHNICAL SKILLS

Frontend Development:

React.js, Next.js, React Native, Expo, Redux, Redux Toolkit, Context API, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Ant Design (Antd), Vite, Axios, RESTful Integration, Progressive Web Apps (PWA), Webpack, Babel

Backend Development:

Node.js, NestJS, Express.js, Python, Django, Django REST Framework, Strapi CMS, GraphQL, RESTful API Design, JWT & OAuth2 Authentication, MVC Pattern, API Gateway, WebSocket Integration

Databases:

PostgreSQL, MySQL, MongoDB, SQLite, Oracle, Sequelize, TypeORM, Query Optimization, Indexing, Data Modeling, Backup & Replication Strategies

AI/Machine Learning (In Progress):

LangChain, LlamaIndex, Vector Databases, RAG, TensorFlow, PyTorch, Scikit-learn, LangSmith, Hugging Face, NLP, Computer Vision, Model Fine-tuning

Cloud & DevOps:

Amazon Web Services (AWS – EC2, S3), Scaleway, Heroku, Vercel, Netlify, Nginx, PM2, Docker, CI/CD Pipelines (GitHub Actions, GitLab CI/CD), Linux Server Management, Load Balancing, Cloud Deployment Automation, System Monitoring

Integrations & APIs:

Amadeus Flight API, Sendbird Chat SDK, Razorpay, Stripe, Firebase, ESCPOS Printer SDK, ESSL Biometric SDK, RESTful Services, WebSocket, Push Notifications, Multi-Language (i18n) Integration, Payment Gateway Integration, API Rate Limiting, Third-Party SDK Integration

Tools & Project Management:

Git, GitHub, GitLab, Bitbucket, Postman, Swagger, Figma, Jira, Trello, Notion, Asana, Slack, Agile & Scrum Methodologies, Sprint Planning, Documentation, Code Review

Testing & Debugging:

Jest, Mocha, Chai, Postman (API Testing), Unit Testing, Integration Testing, End-to-End (E2E) Testing, Performance Monitoring, React DevTools, Chrome DevTools

Mobile Development:

React Native CLI, Expo, Android Studio, Xcode, Native Modules, Push Notifications, Bluetooth & Barcode Integration, Cross-Platform Optimization, App Store & Play Store Deployment

UI/UX & Design:

Responsive Design, Material Design, Component-Based Architecture, Accessibility (WCAG), User Flow Optimization, Theming & Custom Styling, Performance Tuning

Other Technical Expertise:

Version Control, CI/CD Automation, Server Deployment, Agile Delivery, Software Architecture Design, API Documentation, Error Handling, Security (CORS, HTTPS, Data Encryption), Performance Optimization

Domains & Specialized Knowledge:

E-Commerce, ERP Systems, Logistics & Cargo Management, Travel Booking Systems, Accounting Platforms, Retail POS Systems, News Portals, Cleaning & Maintenance Platforms, Gym Access Management, AI/LLM API Integration (OpenAI, LangChain, Vector Databases)

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Little Flower Institute of Social Sciences and Health (LISSAH) – Calicut, Kerala
2016 – 2019

Higher Secondary Education (Bio-Maths Stream)

Government Higher Secondary School (GHSS) Puthuppady – Calicut, Kerala
2013 – 2015

ADDITIONAL INFORMATION

Nationality: Indian

Passport: Valid Indian Passport – Ready for International Travel and Relocation

Languages: English (Fluent), Hindi (Proficient), Tamil (Proficient), Malayalam (Native)

Availability: Available to join within 2 months
